VR Classroom App User Guide
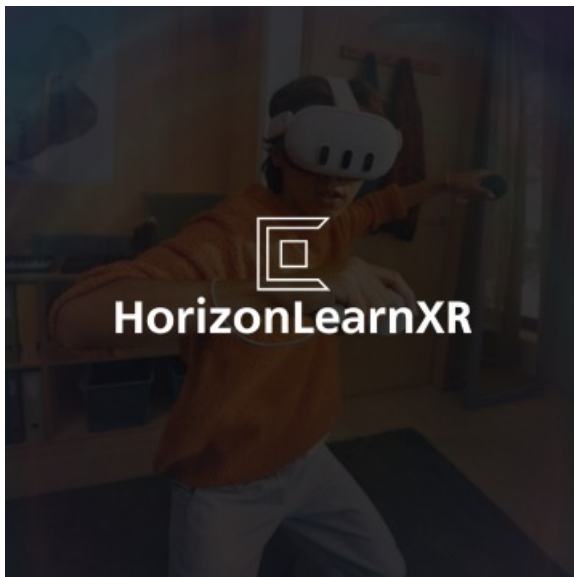

Note You will have to create a udemy account before logging into the app and first intial login requires a email verified number code. Please remain seated when loggin in.

Open your Meta Quest and select the Meta Store. From here type in HorizonLearnXR. It will bring you to the app. From here you sign up and the first 7 days are free and if your not happy to pay cancel it. The app you will see is:

VR Classroom App - Quick Setup Checklist

Before starting the VR Classroom app, quickly verify the following settings on your Meta Quest headset:
Passthrough Home: Turn OFF (Settings → Personalization → Passthrough Home).
Guardian/Boundary: Set to Stationary for classroom use.
 Permissions: Allow Microphone and Storage/Media when prompted.
Auto-Sleep: Set to 15 minutes or higher (Settings → Power → Auto-Sleep).
 Wi-Fi: Ensure stable internet connection before launching the app.

Supported Devices & How to Subscribe

This VR Classroom app is available on the **Meta Quest Store** and works with **Meta Quest 2**, **Meta Quest 3**, and **Meta Quest Pro** headsets. To subscribe, visit the app's

page on the Meta Store from your headset or browser, choose your preferred plan (e.g., Student or Instructor), and follow the on-screen steps to confirm your subscription. A Meta Store PIN may be required to complete the purchase. Once subscribed, the app will automatically unlock full access on your device.

1. Open the App

Launch the VR Classroom App on your device.

You will see the welcome screen with two options: **Teacher** or **Student**.

2. Select Your Role

If you are a Teacher:

Choose the **Teacher** option.

Register the subject you want to teach.

Proceed to the **Login** screen.

If you are a Student:

Choose the **Student** option.

Register by entering your details (name, email, etc.).

After registering, proceed to the **Login** screen.

3. Login Process

Enter your username and password.

You can choose the option to **Auto Save Credentials** so you won't need to re-enter your login details in future sessions. Plus you will not need to login into Udemy

Click **Login**.

4. Starting a Session

For Teachers:

Once logged in, if your credentials match a registered teacher account, you will be prompted to **start a teaching session**.

Select **Start Session** to begin.

For Students:

After logging in, students will be prompted to select a **course**.

Once the student selects a course, the app will check if there is an active teacher session matching the course.

If matched, the session will start automatically.

---

5. VR Classroom Experience

Both the teacher and student will enter a **full VR mode**.

Users can **speak freely** using integrated voice chat.

The student will see a **large virtual screen** displaying Udemy content related to the course.

Students can browse, select, and purchase Udemy courses directly within the app.

---

6. Additional Features

Auto Save Credentials: Select this option on login to avoid retyping your username and password every time you use the app.

Interactive VR Environment: Engage with 3D models, interactive lessons, and real-time communication.

Course Marketplace: Accessible through the VR screen for students to explore and buy courses.

Additional: If you want to learn a VR Udemy course and you don't have a teacher in the course you want to learn. Just give us an email to say what course you want and we will arrange for a teacher to start the session and you will learn the course in full VR.

---

7. Support and Help

For assistance, refer to the Help section in the app or contact support at horizonlearnxr@gmail.com.
